HAYA ALHAJ

JUNIOR FRONT-END DEVELOPER

+963 945520788 | alhajhaya567@gmail.com | Damascus , syria | GitHub | LinkedIn

Computer Engineering graduate and Front-End Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML5, CSS3, Tailwind CSS, and Bootstrap. Experienced in RESTful API integration, reusable component development, CRUD operations, and modern React tools including React Query, React Router, and React Hook Form. Focused on building responsive, user-friendly, and maintainable web applications.

SKILLS

- **Front End :** HTML5 • CSS3 • JavaScript • React.js • Bootstrap • Tailwind CSS • Responsive Web Design
- **React & Libraries :** React Router• Context API • Axios • React Query • React Hook Form • Zod • Recharts
- **APIs & Tools :** REST APIs • Git • GitHub • Leaflet Maps
- **Design :** Adobe Photoshop • Adobe Illustrator • Adobe After Effects

EXPERIENCE

Codveda Technology __ Front-End Development Intern **17 Aug 2026 – 17 Sep 2026 | Remote**

- Completed a 3-level Front-End Development internship focused on JavaScript, React, REST APIs, performance optimization, and modern UI development.
- Developed a responsive React weather application with REST API integration, dynamic data fetching, search functionality, and API-driven data display.
- Improved web performance and developed interactive animations using Framer Motion to create smooth and responsive user experiences.

Selected Projects:

- Weather App — React.js, REST API | https://weather-app-performance.netlify.app
- Emotion in Motion — React.js, Framer Motion | https://emotion-in-motion.netlify.app

Graphic Designer — Elegant Touch, Aesthetic Clinic, UAE **July 2026 – August 2026**

• Designed creative Instagram posts and social media content for the clinic.
• Created visual designs using Adobe Photoshop and Adobe Illustrator while maintaining a consistent visual style.
• Used Adobe After Effects to create animated and motion-based social media content.

Google Ads Campaign Specialist — Remote | UAE-based Software Company **October 2026 – Present**

- Communicate with clients to gather campaign requirements and relevant advertising information.
- Create new Google Ads campaigns and modify existing campaigns based on client requirements.
- Manage and monitor advertising campaigns to track performance and support ongoing optimization.

EDUCATION

Bachelor’s degree in Computer Engineering and Automation 2020 - 2025
Damascus University

PROJECTS

Mu-amalati — Employee Transaction Management System **View**

Front-End Developer | React.js, JavaScript, Tailwind CSS, React Query, React Hook Form, Zod, Recharts

- Developed the front-end of an internal employee transaction management system under the supervision of the project instructor.
- Built role-based dashboards for employees, department managers, and administrators, supporting attendance tracking, employee requests, approvals, and notifications.
- Integrated the front-end with back-end APIs using Axios and React Query, implementing GET, POST, PUT, PATCH, and DELETE operations.
- Used React Router, Context API, React Hook Form, and Zod to build structured, reusable interfaces, with Recharts for data visualization.

Hawan — Taxi Booking System **View**

Front-End Developer | University Graduation Project

React.js, JavaScript, HTML5, CSS3, Bootstrap, Leaflet

- Developed the front-end of a taxi booking system as part of a three-member university project.
- Built responsive landing, login, and sign-up interfaces, integrated Leaflet Maps for location selection, and developed dedicated interfaces for passengers and drivers.
- Implemented ride-status tracking interfaces and integrated the front-end with back-end APIs to support booking workflows and passenger safety.
- Collaborated with two team members to coordinate front-end and back-end development.

COURSES

- **Front-End Development —** *Al-Baraka Association for Social Development*
- **Front-End Development —** *ClaudSoft Academy*
- **Graphic Design —** *Dr. Najeeb Al Mahairy*
